MESSAGE

I am happy to know that the Dr. K. Shantha Breast Cancer Foundation, Tiruchy is organising awareness camps and programs in various regions of the State.

This awareness campaign should help cancer patient care through education about cancer and early detection of breast cancer with treatment, support and rehabilitation of breast cancer patients and their families. The cancer awareness programme among children conducted by the Foundation is an additional preventive, as it will propagate a lifestyle among our youth, which can help in the reduction in cases of this disease.

I extend my best wishes to the members of the Dr. K. Shantha Breast Cancer Foundation for success in their mission of providing quality treatment to most needy patients and the creation of a cancer free society through lifestyle intervention.
